

ArtificialParticleManager
::correctOrbitalParticleForce

ArtificialParticleManager
::createArtificialParticles

ArtificialParticleManager
::getOrbitalParticleN

```
graph LR; A[ArtificialParticleManager::correctOrbitalParticleForce] --> C[ArtificialParticleManager::getOrbitalParticleN]; B[ArtificialParticleManager::createArtificialParticles] --> C;
```

The diagram illustrates a dependency or call relationship. Two source boxes on the left, 'ArtificialParticleManager::correctOrbitalParticleForce' (top) and 'ArtificialParticleManager::createArtificialParticles' (bottom), both have blue arrows pointing to a single target box on the right, 'ArtificialParticleManager::getOrbitalParticleN'. The target box is shaded gray, while the source boxes are white with black borders.
