

bse-interface

2

```
graph TD; A[bse-interface] -- 2 --> B[src];
```

A diagram showing a directed relationship from 'bse-interface' to 'src' with a weight of 2. The top box is light blue and labeled 'bse-interface'. A vertical arrow points down from the bottom center of this box to the top center of a white box labeled 'src'. The number '2' is positioned to the right of the arrow, indicating the weight of the relationship.
