

Ptcl::setParticleCMAddress

PtclHard::setTidalTensorID

ArtificialParticleInformation
::setStatus

```
graph LR; A[Ptcl::setParticleCMAddress] --> C[ArtificialParticleInformation::setStatus]; B[PtclHard::setTidalTensorID] --> C;
```

The diagram illustrates a dependency or call relationship. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'Ptcl::setParticleCMAddress' and the bottom box contains 'PtclHard::setTidalTensorID'. On the right, there is a single gray rectangular box containing the text 'ArtificialParticleInformation' on the top line and '::setStatus' on the bottom line. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both functions on the left interact with or call the function on the right.
